

The Annam Mission is still young, but its opportunities are boundless. The European War going on at the present time hinders advance work to some extent, Annam being a French possession. Up to this time no other Mission Board apart from our own has opened up work there, although one has very serious intentions of doing so; therefore the whole land is still before us.

There were three baptisms during the year. Praise God for these, the first-fruits of Annam. Among the converts was one woman who was a teacher to some of the ladies, and who is now assisting them in the work, visiting in the homes, etc.

The first out-station has been opened at Fai Foo, not far from Tourane, and we trust will soon be followed by many more. Mr. Hosler now has the Annamese language well in hand and conducts services regularly, with a very good attendance.

In addition to the regular meetings, weekly meetings are held in adjacent villages. An inquirer's class is also held at Tourane with several interested inquirers. Negotiations are under way for a large publication of the Gospel of Mark. Some other portions of the Scripture also are being translated.

Mr. Cadman has gone to Annam from South China and will, we feel sure, be a valuable addition to the work, having a good knowledge of the Cantonese language, which can be used among the many Chinese, who are in every part of Annam.

- 1915

We are grateful for the new recruits for Annam sent out this year. This gives us now a band of nine. In another year some more of these will spread out into other portions of the field.

- Frank + Marie

We desire to thank the Board for the Deputation sent from New York in the person of Dr. Glover, who came a few days before conference and remained with us to the end. Dr. Glover having been a member of this conference for a number of years, and a missionary to China for a good many more years, and having also had much experience as a member of the Board in New York, he was able to enter into all the matters of business with intelligence, whether pertaining to work in South China, or from a general missionary point of view, or that which particularly concerned the Home Board. Not only were we helped in business affairs, but in spiritual things as well, by the several messages he was enabled to give during his short stay. We look forward with great pleasure to a second visit in the early spring, when our brother expects to come again on his way home to America, this time with a view to visiting Annam. We shall be glad for many such Deputations in the future, if Jesus tarry.
