Rev. D. I. Jeffrey,
Tourane, Annam.

Dear Ivory:

Enclosed please find printed form for the yearly statistical report of the Bible School. The report forms are not adapted to Bible Schools, but I must have the school figures in order to make up the statistical report for the Board. The form for this has just come to hand from New York, and I am asking the Stations to get their reports in as soon as possible, Make them up even before the end of the year if possible, as I want to get this report off to New York early in January, and I cannot fill in my report until all of the Stations have been heard from.

Your statement of expenditures and receipts on Building account has come to hand. I have gone over it and found it correct, so am enclosing mandat for 57.12 piastres to close out the account. Mr. Smith wrote me the other day asking if Thay Thai's salary for the two months that he was working on the building could not be charged to this account. The reason he advanced for doing this was that the bad weather had cut down the attendance at the Faifoo Church, and incidentally had made a big deficit in the Church offerings there. I think that under the circumstances this is quite justifiable, and have sent the money to him to be ~~paid~~ charged to the building. Please enter this amount on your books and sign the enclosed receipt for same. I am also sending receipt forms for the other amounts sent on building account.

We mailed a parcel for Ruth for Christmas, also one for Bobby Smith. Let us know if they arrive safely.

Best wishes for a merry Christmas to all

Sincerely yours
