Send Johnson accumulated allowances immediately c/o Mrs. Barton. Toronto.

- Betty Mitchell was hospitalized Sunday - required intravenous feedings. She is being treated for malaria. They don't know if there is any other thing that needs to be diagnosed, -- but I just came from the hospital about an hour ago, and she is much improved. They took the IV away and she is able to get up and back to bed by herself - she is 100% better today. A real answer to prayer.

Gerry is staying overnight with her tonight.

- Dr. King and Dr. Bailey left tonight - Dr. King is going to Bombay and then on to Frankfurt and home.

Mr. Mangham: Do you know his arrival schedule?

Mr. G: He didn't say - he should be back by the weekend.

Mr. Mangham: What about the pictures he said would be here Monday?

Mr. G: He has them with him. He has 2 good pictures.

Mr. Mangham: Bob Cowles was hoping they would be here today - Mondya.

Mr. G: I don't know how we'd have gotten them there. We got them Sunday afternoon. He took them with him today when he left - I don't know what he's planning on doing. I think he w/be home earlier than the weekend. Maybe Thursday. He just changed his reservations today, and I can't remember what he changed them to. He plans to spend tomorrow at Bombay, and then leave.

Everything is fine here - but we have water up to our ears. Have them pray for us - the 4th through the 8th are supposed to be the worst tides - we have a foot of water in the front yard now.

- Would you call Ed Plowman - Christianity Today - 202-347-1753. Tell him that the tape I told him about on the phone I sent on Pan Am and it w/leave here about midnight tonight and should be there in PA 001 - 11/4/75 in New York tomorrow night - check the baggage service at JFK - he w/have to send someone there.

Dr. Bailey w/be going right through - should be there in a day or so.
