

An article is being prepared both for publication in THE ALLIANCE WEEKLY and as a pamphlet in our Free Literature giving the inspiring story of God's working in the French Indo-China mission field since the Christian and Missionary Alliance began its work there in 1911. During the past year over eight hundred converts were baptized, three hundred and fifty of these being at one station, Mytho. There are now over two thousand members in the church in French Indo-China and the native offerings during a period of eight months this past year totalled 6,034 piastres equivalent to \$3,500 in gold. The Mission Press at Hanoi printed over ten million pages of Scripture or other Christian literature and many thousands of Scripture portions, New Testaments, tracts, and books were sold. The entire Bible has been translated into Anamese and is being printed at our Mission Press, and work is proceeding on the translating and printing of portions of the Bible in Cambodia. Three married couples who have spent several months in France in the study of French are expecting to sail to French Indo-China in December and others are under appointment to sail as soon as funds are available. It is the purpose of our French Indo-China Mission to propagate the work as largely as possible through native ministry and God is richly blessing to this end. The Conference has requested money for five automobiles to be provided, costing from \$1,000 to \$1,200 each. When these cars are made available the missionaries will be enabled to cover much larger territory and direct the work of more native pastors and evangelists thus greatly increasing the scope of the work. Recently one half of the money needed has been provided, \$1,000 being given by a wealthy Anamese Christian and \$1,600 by friends in the United States.
